MARINE EQUIPMENT SUPPLY

COMPANY

In 2011, MES was founded when several key leaders from the contracting side of the marine and industrial surface preparation industry came together with one common goal: To create a nationwide surface preparation equipment rental and supply company.

The vision for MES was to utilize more than 100 combined years of best practices, lessons learned, and know-how to service all contractors in need. MES not only provides a wide range of equipment, but also proudly provides recommendations of best practices to ensure each job runs as efficiently and effectively as possible. MES is an experienced, one-stop-shop to outfit any job, anywhere in the country.

PRODUCTS & SERVICES

Regardless of the location, MES works with clients to provide the newest equipment and technology to ensure your job is completed on time, with zero down time. In just 6 years, MES has grown to establish itself as a leader in the market with one of the largest fleets of equipment available for your surface preparation needs. We maintain an active rental fleet of diesel and electric equipment including Steel Grit Recyclers, Abrasive Blast Pots, Vacuums, Dust Collectors, Dehumidifiers, Air dryers, and more, all available nationwide. With strategic locations on the east coast, west coast, and within the Gulf, MES is able to support all major shipyards and industrial facilities when you need it. With a 24/7 staff of technicians to maintain equipment performance, MES is able to live by their motto of "Zero Down Time" and ensure each job is a success from start to finish.

“ In just 6 years MES has grown to establish itself as a market leader with one of the largest fleets of equipment available for your surface preparation needs with 24/7 service available nationwide. ”

TRUSTED EXPERIENCE. NATIONWIDE SERVICE.
