

SKID MOUNTED AMPHIBLAST ABRASIVE BLASTING SYSTEM

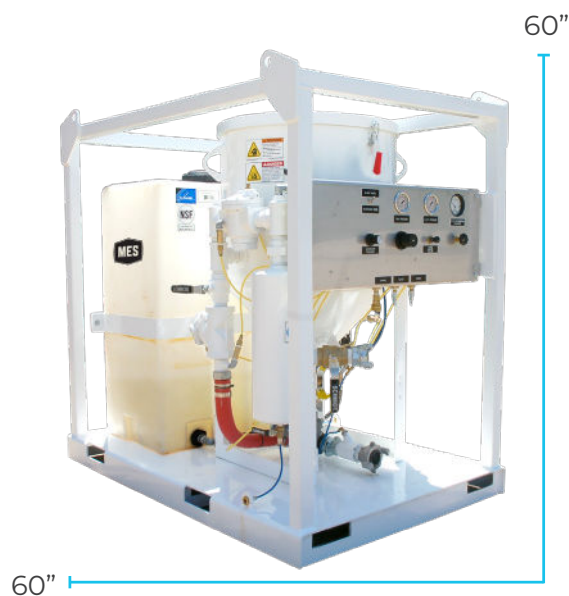

This versatile abrasive blasting system combines proven and familiar Schmidt® controls with innovative moisture injection technology for a highly productive and easy-to-use wet/dry air blast system – all in a single unit.

FEATURES / SPECIFICATIONS

- ▶ Multiple outlet capability
- ▶ Easily switch between all modes: wet blast, dry blast, softwash™, and blowoff
- ▶ Precise water flow allows operator to dial into ideal mixture of grit and water
- ▶ Can accommodate wide range and size of abrasive
- ▶ Can blast at high and low pressures*
- ▶ Industry leading productivity and reliability from Schmidt® abrasive air blasting technology

SINGLE OUTLET

WEIGHT: 750 LBS | WIDTH: 38"
4.5 CU. FT. - BLAST POT
80 GALLON - WATER TANK

DUAL OUTLET

WEIGHT: 1,380 LBS | WIDTH: 37"
6.5 CU. FT. - BLAST POT
165 GALLON - WATER TANK
